

# Thirteen Original Colonies iMovie Project

Today in class and for the next couple of days you will be working on your iMovie project. This project will be over the thirteen original colonies. During this project we will not use any hand held footage. You will be using pictures and any video clips that you may be able to find. When your project is complete you will need to hand in your notes that you have gathered as well as the script you use during your narration. You will be narrating the video so reference your notes, book, and any research you may need to do for your topic. Remember to cite everything you use for your project. The rubric for this activity is on my website. Your presentations will need to be 4 – 6 minutes long.

## **Things to Include:**
