

Lewis and Clark Expedition Activity

First go to the following website: <http://www.pbs.org/lewisandclark/index.html>

Next when you arrive at this site I want you to click on “Inside the Corps”

Then click on “The Corps” and write down how many were in the permanent party and where they all traveled too.

Then click on Meriwether Lewis and William Clark and read both of their bio’s and give me a 10-bullet point summary of what was said going from the start to finish of their bio’s

Next click on “The Archive” and then click on “A Timeline of the Trip” and take down 7 bullet points per page looking over different months and years

Then, click on “Into the Unknown” and take your virtual journey with Lewis and Clark

Finally what you will do is write a 2-paragraph journal entry as either Lewis or Clark describing the journey you have just gone on, talk about struggles, successes, new creatures you have encountered and the places you have gone.
