

The First Thanksgiving

Today in class you will be researching and learning about the first thanksgiving. This activity will go in your notebooks. What I want you to do is create an outline over the material that you will read on the website provided. After creating your outline go back and click on the link “Learn More” to read about what was really on the menu and after you have read that click on the “fun facts” link and read through those as well. Continue to take notes in your outline as you read the two bonus sections. After you have completed your outline we will have a discussion about the first thanksgiving.
