

# Permission Slip for “Thirteen Days”

I am sending this home because I will be showing the movie called “Thirteen Days”. We are currently covering the Cold War and as a representation of the panic and fear caused by the Cuban Missile Crisis and the threat of nuclear war I wanted to show “Thirteen Days”. I feel it does a very good job of illustrating the worry, fear, and suspense of the moment and how truly important it was. This movie is rated “PG-13” but it does have some strong language at times in the movie so this note is being sent home for you to sign and consent for your student to view it. If you are uncomfortable having your student view the movie you do not have to sign the permission slip and an alternate assignment will be provided.

Thank you,

Mr. VanEngen
