

World War II Google Slides Project

Overview:

Over the next several days in class you and a partner will work together to make a Google slides presentation over the topic of your choice. Your topics will cover specific countries that were involved in World War II. You will have terms listed along with your country that you will be required to define and explain how they impacted a specific portion of the war. The rubric for this assignment is posted on our class website.

Overall Question: What were the important events/people of WWII in _____?

Google Slides Guidelines:

- Maps showing where each battle happened and where the cities were located
- 3 slides per term
- You will need to have pictures (3 – 5) per **term**, not including the map
- The text **NEEDS** to provide factual information that will help to describe your term's importance to WWII.
 - The amount of text is up to you, but ultimately I will decide if you have enough information.
- 2 – 3 videos **per Country** chosen
 - Your videos can account for 20% of your presentation time
 - Videos can be longer but you will need to decide what parts to show since only 20% of your presentation time can be video (Ex: 10 minute presentation, 2 minutes of video are allowed)

- Presentations will be required to last at **minimum 10 minutes**
- You also **need to cite ALL** of your sources at the end of your presentation
(provide links to these pages is all that you need to do)

Extras: Not required but thoughts for presentation

- Audio of speeches and battles
- Kahoot to review what you have taught us
- Note taking guide for your presentation

Impact of World War II
